

Health and Safety at the Night Shelter

Aprons, utensils, pans etc. must all be thoroughly clean before use.

Please also make sure that you yourself are clean: handwashing is the most important thing but also avoid strong perfumes, aftershave or jewellery that might get into the food.

Hot food **must** be heated to 75 degrees Celsius before serving. Use the probe thermometer to test this.

Cold food should be kept in the fridge at home before use. If you are bringing it up here, please put it in the fridge as soon as you arrive.

Food that is going to be served at the night shelter must not be left at room temperature for more than one hour.

Please tidy, clean and disinfect all areas of the kitchen after each meal.

All utensils and unused tins/packets of food should be returned to the storage area.

Please do not put any perishable food in the storage area.

After plates, bowls, cutlery and glasses have been washed and dried, wrap them in cling film, so they are kept clean, and return to the storage area.

Rubbish must be disposed of after each meal in the wheelie bins at the back of the church.
